CATALOGUE "D"

NOTE

WE present herewith for the inspection of the trade our "D" Catalogue, illustrating the latest Staple Productions of The Trenton Potteries Co., in SANITARY VITREOUS CHINA and IDEAL SOLID PORCELAIN WARES.

We are the largest manufacturers of these goods in the world, having a capacity of 52 large kilns and 10 decorating kilns, and covering 12 acres of ground space.

We make a complete line of these goods, and are adding new designs constantly; therefore it is advisable to correspond with us in case goods are wanted but not found illustrated in our catalogue. We are prepared to manufacture special goods in any required design.

We employ the best mechanical talent, use the finest materials, and the workmanship upon our wares cannot be excelled. We give special attention to durability, as well as the finish, of all of our productions, be they staple goods or specialties, for the manufacture of which we have exceptional facilities.

Prices upon all the articles shown in this catalogue can be obtained from Jobbers in Plumbing Supplies, to whom we confine the sale of our productions.

IN RELATION TO DIAGRAMS

SHOWN ON PAGES 142 TO 157

THE diagrams given in this catalogue are the measurements of the closets only, and are **not roughing in measurements.** In roughing in, due allowance should be made for space to be occupied by wainscoting and trim, plaster, tile, etc., also for the necessary distance from finished wall to flush pipe.

Owing to the variation in shrinkage in Earthenware, both in the process of making and firing, frequently two pieces made from the same moulds, and by the same man, and fired in the same kiln, will show slight variations; it is obvious that it would be impossible to furnish measurements that would be absolutely accurate, but those given on the diagrams are approximately correct, the usual allowance being made owing to the conditions above mentioned.
